# GLOVES

# FABRICS

L'innovativa composizione, l'alta percentuale di lattice naturale e la struttura microporosa garantiscono flessibilità e morbidezza assicurando straordinarie caratteristiche di presa anche in condizioni di umidità.

*The innovative composition, high percentage of natural latex, in addition to a microporous structure provide contact latex with flexibility and softness, as well as ensuring the product's outstanding grip even in wet conditions.*

Lattice speciale studiato per assicurare la massima adesività e sicurezza di presa in condizioni di umidità e pioggia persistente.

*A special latex designed to ensure maximum adhesion and a safe grip in wet conditions and heavy rain.*

Schiuma in lattice estremamente morbida e di alta qualità che garantisce un'ottima presa in qualsiasi condizione atmosferica.

*Extremely soft, high quality foam latex that ensures optimum grip in all weather conditions.*

Schiuma in lattice sintetico che garantisce un'ottima resistenza all'abrasione, una presa sicura, buone proprietà di ammortizzamento anche in condizioni di umidità.

*Synthetic foam latex which provides excellent abrasion resistance, a secure grip, as well as good shock absorption properties in wet conditions.*

Schiuma in lattice sintetico dalle buone caratteristiche di resistenza alle abrasioni e proprietà di ammortizzamento; indicato su terreni duri.

*Synthetic foam latex with good resistance to abrasion and shock-absorbing properties; suitable for hard terrains.*

Negative Cut è progettato per dare la massima area di contatto mantenendo una vestibilità aderente in tutte le posizioni.

*Negative Cut is designed to give the large contact area as well as the close fit of a negative touch in all handling positions.*

Flat Cut fornisce massima area di contatto lattice pallone. Gli inserti-dita permettono traspirazione e ventilazione, mantenendo le tue mani confortevoli.

*Flat Cut maximum latex to ball contact area. Finger gussets allow for good airflow and ventilation, keeping your hands comfortable.*

Particolare costruzione che garantisce al guanto un ottimo grip su tutta la superficie del palmo.

*Special construction that guarantees an excellent grip over the entire surface of the palm.*

Speciale costruzione del palmo interno del guanto che grazie all'evoluta forma 3D del HQ Latex consente di ottenere maggiore aderenza, controllo, sensibilità e stabilità. Indossando il guanto si percepisce immediatamente questo plus sia nella zona del palmo che delle dita.

*Special construction of the inner palm of the glove, which, thanks to the advanced 3D shape of the HQ Latex, increases grip, control, sensitivity and stability. This advantage is perceived both in the palm and the finger area.*

La regola del portiere è semplice: più soffice è il latex, migliore è la presa. Consigliamo quindi un utilizzo attento per garantire una maggiore durata del guanto.

*The goalkeeper rule is simple: the softer the latex, the better the grip. Therefore we suggest a proper use of the gloves in order to guarantee a longer durability.*
